## Profile

My primary responsibility is to create and maintain the client-facing portion of websites, ensuring they are visually appealing, user-friendly, and responsive.

## Employment History

### Junior Front-end developer, dynamiscreative

March 2023

I worked on the web development of 5 pages for home sales, etc... Each project is worked with Nuxt 3 with composition API, currently I am improving the structure of my code with typescript for a more legitimate code

### Web designer, October Studio

January 2022 — August 2021

Worked as support in the layouts of the web pages that clients required, passing the entire design created in figma to HTML5, CSS3 and JS

### Front end Developer, Kation Interactive

February 2019

I currently work for kation interactive as a website developer. I started working as a web designer but now I find myself developing ecommerce with Nuxt 3 and supervising the work of my team
